

Another Look! You can show a number in different ways.

3 hundreds, 4 tens, and 8 ones

$348 = 300 + 40 + 8$ is the same as

2 hundreds, 14 tens, and 8 ones

$348 = 200 + 140 + 8$

Remember that 10 tens makes 1 hundred. So, 1 hundred and 4 tens is the same as 14 tens.

Additional Practice 9-5
Different Ways to Name the Same Number

HOME ACTIVITY Write the expanded form of a number and ask your child to tell you another way to show the number. For example, write $200 + 10 + 6$ or $900 + 40 + 3$.

Show two different ways to name the number. You can use place-value blocks to help.

1. $734 =$ _____ hundreds, _____ tens, and _____ ones.

$734 =$ _____ hundreds, _____ tens, and _____ ones.

$734 =$ _____ + _____ + _____

$734 =$ _____ + _____ + _____

2. **Be Precise** What number does the model show?

3. **Number Sense** Write a three-digit number. Then write it in two different ways.

My Number _____

Way 1 _____

Way 2 _____

4. **enVision® STEM** Matt built a house with 164 blocks. The main part of his house has 100 blocks. The roof has 50 blocks. The chimney has 14 blocks. Write another way to use the same number of blocks for a new house.

5. **Higher Order Thinking** Write 936 two different ways using the charts.

Hundreds	Tens	Ones

Hundreds	Tens	Ones

6. **Assessment Practice** Which is a way to show 764? Choose all that apply.

- $600 + 150 + 4$
- $600 + 150 + 14$
- $700 + 50 + 14$
- $700 + 60 + 4$
