

AZ Vocabulary

1. **Height** tells how high or tall.
Length tells how long.

You can **estimate** the length or height of objects before measuring.

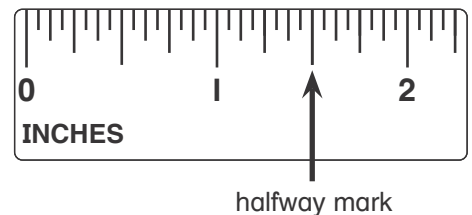

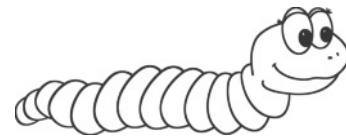

The _____ of the burger is about 1 **inch (in.)**.

The _____ of the burger is about 2 inches.

2. An estimate for the length of the worm is about 2 inches.

Use a ruler to measure the length of the worm in inches.

Line up the 0 mark of the ruler with the left end of the worm.

To measure to the nearest inch, look at the halfway mark.

Is the worm longer or shorter than the halfway mark?

Read the number closer to the right end of the worm.

The worm is about _____ inches long.

On the Back!

3. Estimate the length of your pinky finger in inches.
Then measure this finger to the nearest inch.
